# Ohio River Mainstem System Study

The U.S. Army Corps of Engineers has released the Draft Integrated System Investment Plan and Programmatic Environmental Impact Statement for the Ohio River Mainstem System Study Report (ORMSS). The study took a holistic approach to identify how lock reinvestments should be optimized on the Ohio River.

Go to <http://www.lrl.usace.army.mil/ORMSS/> to download the study or find local libraries where the study is available.
